# Suðurnes Hospital & Health Center

## Suðurnes Hospital

The Suðurnes district is one of seven health districts in Iceland, servicing over 22.000 inhabitants.

The Suðurnes Hospital & Health Center is one of the largest health organizations in

Iceland. It is located in the beautiful Reykjanes peninsula, ten minutes drive from the

Keflavik International Airport. It plays a central role in the health service of the five Suðurnes municipalities.

Reykjanesbær, only 40 minutes drive from the capital, has both the atmosphere of a big city and a charming small town with a variety of recreational and cultural activities. Everyone can find something of interest, such as challenging golf courses, The Blue Lagoon Resort & Spa, outdoor swimming pool, whale watching, beautiful hiking areas, and moderate mountain climbing with spectacular view.

Last but not least you will be welcomed by the warm hospitality of the people of Suðurnes.

## Facilities

Suðurnes Hospital & Health Center offers a wide variety of high quality services in the area of Family Medicine, Pediatrics, General Internal Medicine, Emergency Services, Rehabilitation, General Surgery and Obstetrics & Gynecology.

The health center offers daily appointments with specialists in family medicine as well as 24 hour emergency services. Hospital facilities include a 23 bed acute care unit on the 2nd floor in the most recently built part of the building. In an older part of the building the OB-GYN unit has 8 beds and the rehabilitation unit has 18 beds. There is a 25 bed satellite nursing unit, located in Grindavik, 15 km from Reykjanesbær.

## Surgery Unit

The surgery unit is brand new and consists of two very well equipped general operating rooms. There is also a smaller treatment room with new, top of the line endoscopy equipment for bronchoscopy, gastroscopy, and colonoscopy.

## Staffing

The hospital is staffed with eleven specialists in surgery, anesthesiology and internal medicine, some of them working part time. There

are five internal medicine specialists all of whom have subspecialties: cardiology, gastroenterology, oncology and pulmonology. There are two specialists in general surgery,

and obstetrician & gynecologist an otolaryngologist and two anesthesiologists.

The health center is staffed with eight specialists in family medicine and three doctors in training. The nursing staff in all departments is university educated with a bachelor's degree in nursing or a higher degree and highly motivated.
